

Introducing a New Program to Bridge the Digital Divide in CT

With sponsorship from the Department of Aging & Disability Services State Unit on Aging & the CT Tech Act Project, NEAT is excited to offer FREE services to organizations such as:

- Providing technology training to staff members of entities that serve seniors or adults with disabilities
- Teaching built-in device accessibility features (e.g. text to speech) to staff
- Hosting workshops and events to teach use of social media and virtual platforms like Zoom
- Providing information about community resources to staff, to pass on to the individuals you serve

Why should your agency participate?

- Learn technology and accessibility features to better help the individuals your agency serves
- Bring more clients to your agency through event and workshop hosting

Contact NEAT to get started today!

William Seaman, CPACC, Digital Divide Coordinator
