

Introducing a New Program to Bridge the Digital Divide In CT

With sponsorship from the Department of Aging & Disability Services State Unit on Aging & the CT Tech Act Project, NEAT is excited to offer FREE services to individuals to support areas such as:

- Providing tech support for existing or new devices
- Teaching built-in device accessibility features (e.g. text to speech)
- Reducing social isolation using technology (e.g. learning to use social media and virtual platforms like Zoom)
- Connecting individuals to community resources
- Providing tablet technology to eligible individuals
- Increasing access to technology and WiFi

Who is eligible to participate?

- Adults with disabilities (18 and older)
- Aging adults (60 and older)

How does somebody get started with the program?
